

# CUP 606

## Copper - Phosphorus

### Mechanical & Physical Properties

|                                 |                    |         |
|---------------------------------|--------------------|---------|
| Melting Range                   | C°                 | 710-825 |
| Recommended Working Temperature | C°                 | 730     |
| Tensile Strength                | Mpa                |         |
| Electrical Conductivity         | % IACS             |         |
| Density                         | gr/cm <sup>3</sup> |         |
| Elongation                      | %                  |         |

### Main elements % (min-max)

P: 6,4-6,8 / Cu: Bal.

### RoHS Limit ppm

Cd (100ppm) ; Pb / Hg / Cr (1000ppm)

### Specifications

|              |  |                 |
|--------------|--|-----------------|
| EN ISO 17672 |  | CuP 180         |
| DIN 8513     |  | L-CuP7          |
| AWS A5.8     |  |                 |
| DIN EN 1044  |  | CP 202          |
| EN ISO 3677  |  | B-Cu93P-710/825 |

### Other %

Impurity : 0,25 max

### Availability

|           |             |             |      |          |        |       |               |
|-----------|-------------|-------------|------|----------|--------|-------|---------------|
| Bare rods | Coated Rods | Wire / Coil | Foil | Preforms | Powder | Paste | Flexible Wire |
